Change Analysis

Another experiment to look at rate of change. Idea here is to compare the reported change against the cumulative sum.

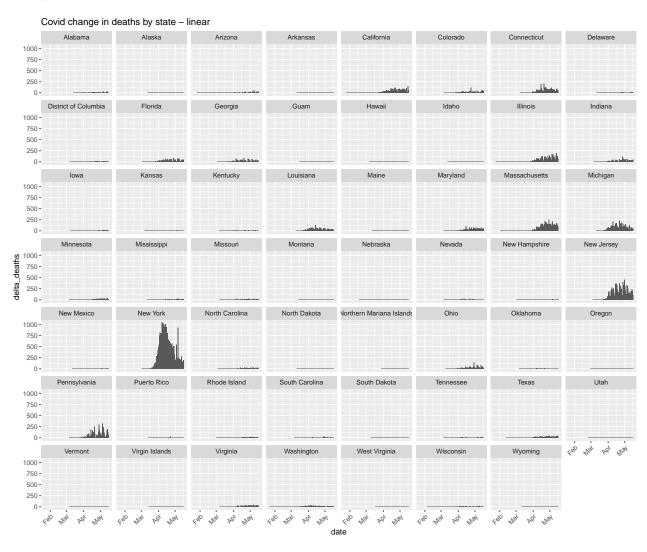

Last date for states data is 2020-05-16

Extract daily changes

Daily Cases

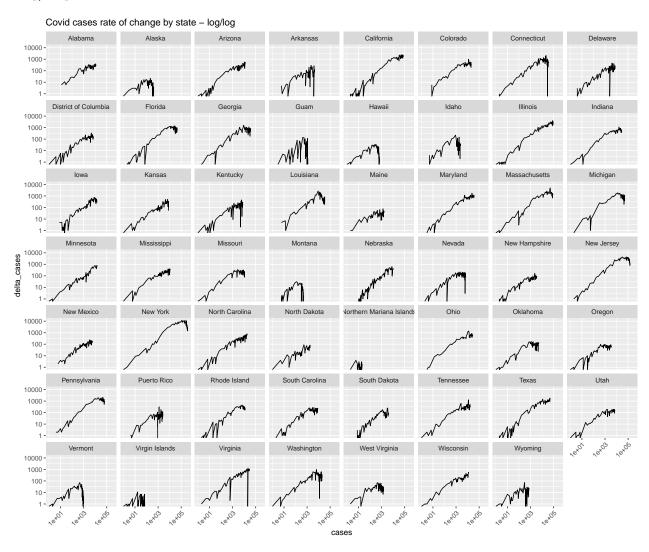

Daily Deaths

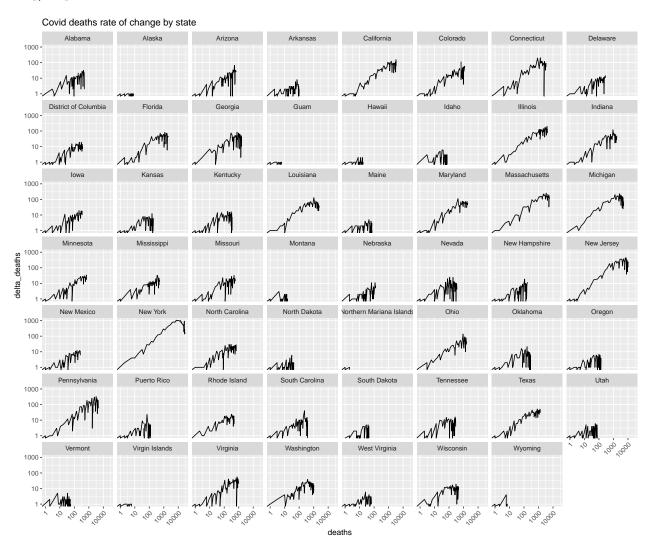

Log of Change Over Cumulative Sum

Linear values are skewed by higher-magnitude values, so use a log(10) on each axis. this better fits the exponential nature of the data anyway.

Log/Log of Cases Over Cumulative Sum

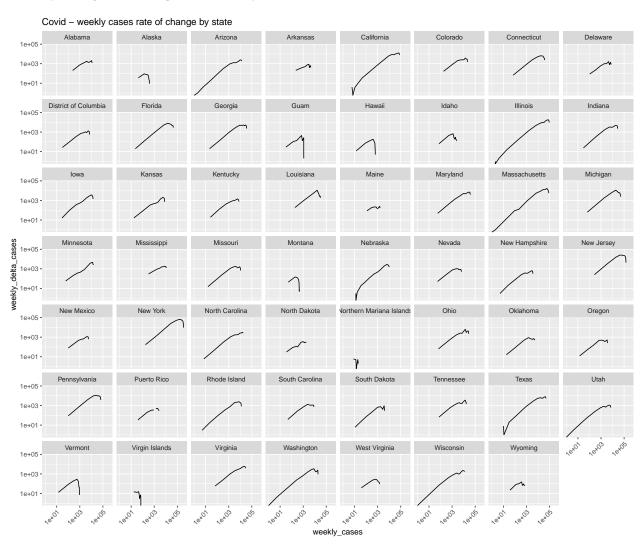

Log/Log of Deaths over Cumulative Sum

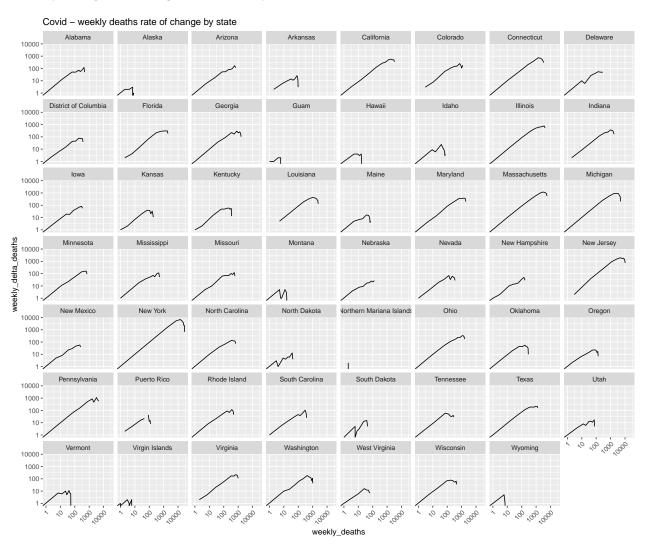

Weekly Rate of Changes

In order to smooth out the curves in the previous graphs, look at them on a weekly basis.

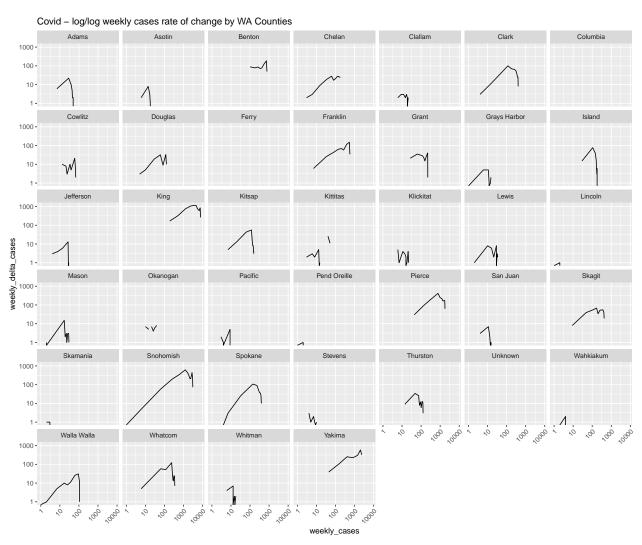

Weekly Range of Change of Cases by State

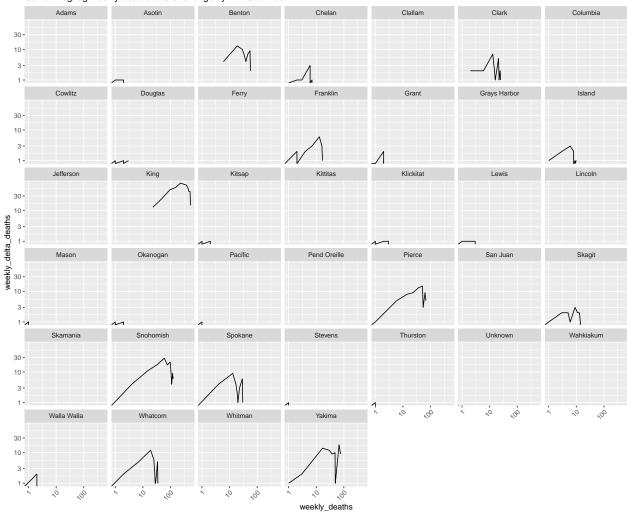

Weekly Range of Change of Deaths by State

Washington Counties

California Counties
